Good morning counsel,

Attached are the Court's additional questions on the motion to amend/correct for your review. The tentative ruling on the Motion to Amend/Correct is pending. However, again, if all agree that no appearances are necessary (for both motions) and that the Court's questions can be answered in writing by the end of business today, the Court will take the matters under submission and issue written orders.

Please let me know at your earliest.

Thank you,

Robert McNamee
